

# Gyaan Nidhi

– Educate, Inspire and Empower Minds

# Problem Statement

A platform which can be used for coordinating between mentors, mentees and the person in charge with a focus on cost-effective strategies and basic technology utilization.

- Mentors are matched with mentees manually.
- Require a person in charge to track progress.

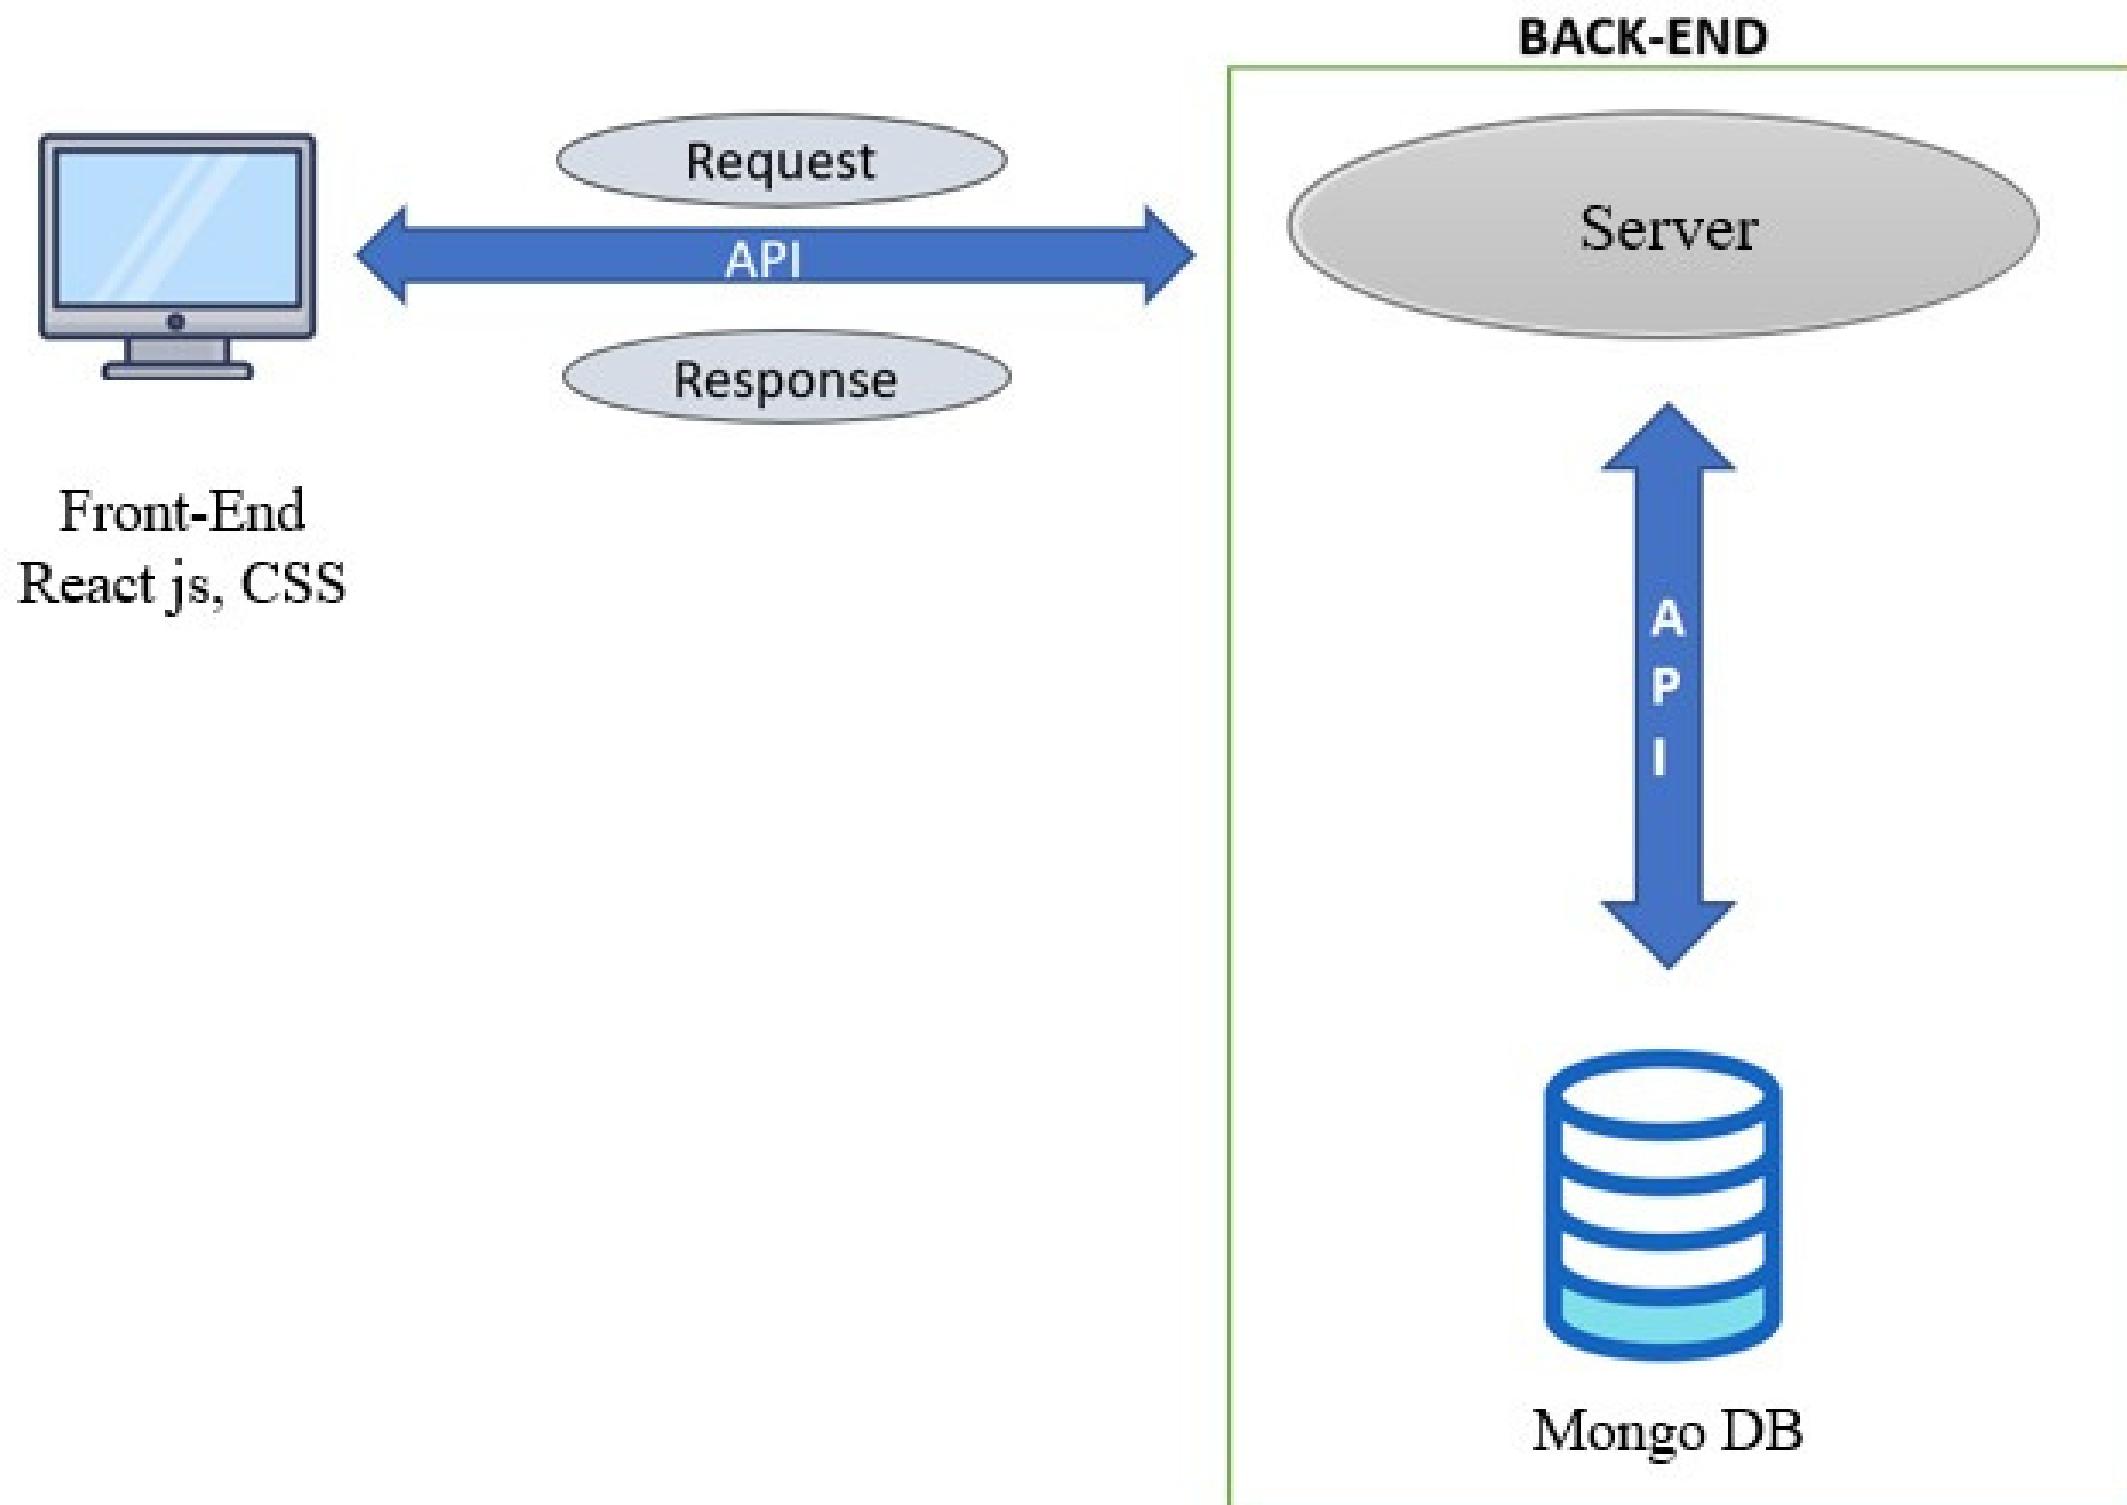

# Proposed Solution

**The platform facilitates the matching of mentors and mentees based on their self-assigned skill tags, primarily considering the language.**

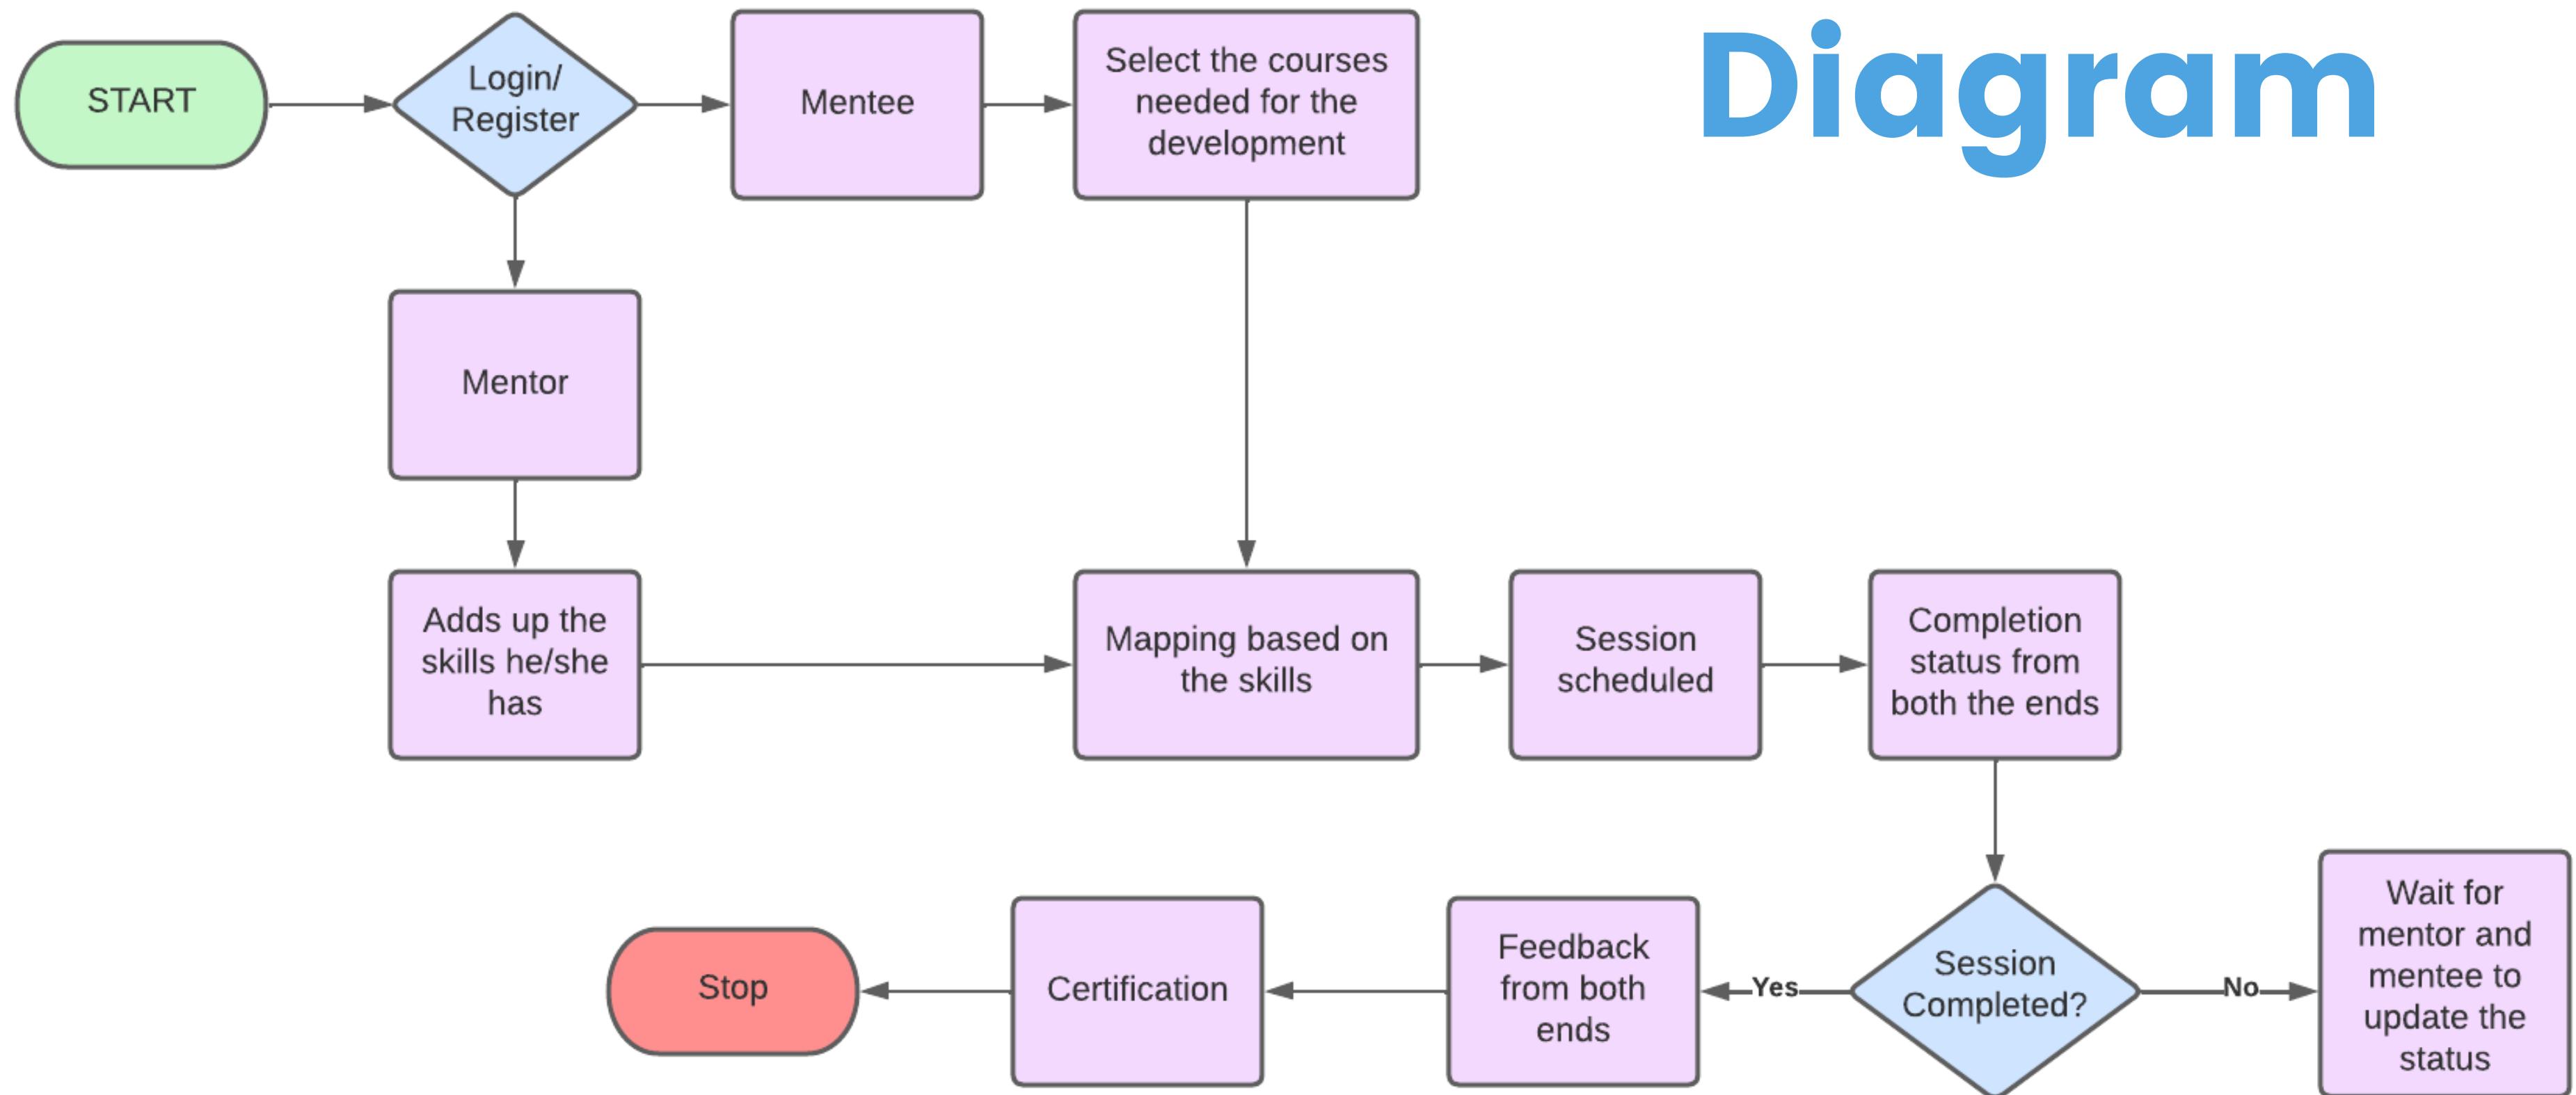

**After each mentoring session, both parties have the option to confirm the session, and upon completion of monthly modules, certification is provided.**

**Furthermore, the solution automates the mapping process, resulting in significant time and cost savings.**

# Architecture Diagram

# Data Flow Diagram

# KEY FEATURES

## Mapping

The mapping of mentees with the mentors is based on the language preference.

## Certifications

Mentor and Mentee both get certification for completion of modules

## Progress Bar

The progress of the mentees is displayed using the horizontal bars.

## Upcoming Sessions

Both mentors and mentees can see the upcoming scheduled sessions.

## PROJECT EMPHOWER

Our volunteer program aims to connect experienced professionals with under-resourced degree women students who may be facing challenges in their job search or career planning. adipisicing elit. As a volunteer, you will help these students develop the soft and core skills they need to succeed in their chosen fields.

# ABOUT US

## About Us

Canasu is not just an organization that helps women entrepreneurs, it is a revolution to support the dream of every woman to construct their future with perseverance. We strengthen their inner voice by driving away their fear of suppression and by bringing freedom into every sphere of their lives. We strongly believe that if we need to make the world a better place for tomorrow, women need to be architects of the future. There are several women in communities who are suppressed and are not supported due to social inequality and societal shackles. Our aim is to educate them and free them from this caged thinking which is hampering their growth.
